CELEBRATES  
**ITS 120TH ANNIVERSARY**

SPRING-SUMMER 2026

Heir to a Vosges spinning mill founded in 1906, Anne de Solène is celebrating its 120th anniversary in 2026.

To mark the occasion, Anne de Solène is unveiling a new color to the iconic Rosée bedding range.

In the rustling wind, the Honesty flower seed pods come to life and draw a transparent picture of nature in suspension, revealing its delicate contours in a plant-based composition of sage green and white tones, imbued with lightness.

Another highlight is the renovation of our Paris store, now a showcase of softness and a reflection of our philosophy. The team welcomes you at 108 rue du Bac in Paris, to a place where bed linen is experienced as a second skin, reassuring, enveloping, and warm.

As always, this creative abundance is accompanied by our unwavering commitment to quality and respect for the environment. Our workshop in Fontaine-au-Pire in the Hauts-de-France region ensures complete control over production and perpetuates a unique savoir-faire, faithful to the French textile tradition.

Finally, the majority of our products are OEKO-TEX® STANDARD 100 certified, and each stage of production is subject to rigorous controls. Our bed linen collections, some of which are made from organically grown cotton, combine elegance, comfort, and responsibility.
