

ANNE
DE
SOLÈNE

PARIS - 1906

FALL - WINTER 2024

Heir to a Vosage spinning mill, created in 1906, the French brand Anne de Solène symbolizes exceptional French household linen, hand drawn and made using the best fabrics and with respect for traditions.

Creativity and femininity have always distinguished our collections, down to the smallest detail our quest for true elegance and absolute comfort.

Anne de Solène is known for its history, but also for its strong values, industrial know-how, and for its environmental commitments.

Its atelier, based in Fontaine au Pire, in the North of France, gives Anne de Solène industrial mastery of its productions, and its teams preserve the know-how in the purest French tradition.

All Anne de Solène products are certified Oeko-Tex, every product is checked at every step of manufacturing.

Anne de Solène also offers collections of printed bed linen in cotton from organic farming.

PREFACE

ONCE UPON A TIME...

The Fall Winter 2024 collection is a hymn to Nature through the prism of fairytale wonder.

Nature is bewitching and mysterious, with imaginary flowers, wintry hues that soak up the morning mist, the abundant variety of greens of the forest, leaves that redden and are colored with warm orange and golden yellow.

The chiaroscuro atmosphere reveals an enchantment of the room. A winter garden, a cabinet of curiosities, in the attic of a castle where old storybook papers are scattered and revive our childhood memories.

PRINTED BED LINEN

X

HISTORY OF MOTIFS

The Elegance of the French art of living :
Here the promise of a unique collaboration
which combines the timelessness of the emblematic
motifs created by the Manufacturer Oberkampf
to the know-how of the House of Anne de Solène.

Founded in 1760 in Jouy-en-Josas by Christophe-Phillpe
Oberkampf, the Manufacture is distinguished for having
paid attention to its artistic renewal.

**"IT PLAYED AN ACTIVE ROLE IN THE CREATION OF A NEW
DECORATIVE ART WHICH STILL RESONATES TODAY."**

From the discovery of faraway lands to epic route to India,
from village life to gallant love, the Manufacture's iconic prints
fascinate and captivate us like a picture book.

In the textile archives of the Musée de la Toile de Jouy,
kept away from light and temperature variations, we have
chosen **a printed canvas for the bed linen in a naturalistic
vein of the eighteenth century.** For the Bath products,
a more whimsical pattern of the eighteenth century
has been selected.

Through this collaboration, **the designs of the Manufacture
Oberkampf come back to life crossing the centuries
and asserting themselves as eternally contemporary.**

GALANTE

PERCALE ORGANIC COTTON, TC 200

Nature is enchanted by Gallant Scenes, and becomes the witness to budding love. Like an ode to love, genuine Toile de Jouy tells the story of love in the 18th century.
